Dear Glenda

Re: Houses for Members of Parliament and House in Chiefs

I would like to take this opportunity to thank you for your input in this project in the form of the interior design as well as other related design advice.

Your involvement has succeeded in transforming the scheme into a showpiece and has introduced a standard here in Botswana which has hitherto been hard to find. We are receiving comments from the clients as well as many observers which convince me that this is only the beginning of a tremendously successful period for you in Botswana. You have set a pace which others will find hard to match.

As you will know the tenders for the furniture contract have now been returned and the response was overwhelming; this was partly because of the clarity and comprehensiveness of the tender documents.

Here again the client has been pleasantly surprised by the high quality of the design and is looking forward in anticipation to the finish of this project. Needless to say the tender documents could not have been completed to this level without your sterling work.

Your talent and professionalism are very much appreciated and I look forward to many other opportunities for collaboration.

Yours sincerely

Mr. B.A. Oluwa
Managing Director, FMA Architects (pty) Ltd
