

TO WHOM IT MAY CONCERN

Glenda Lunsky & Associates was contracted by ACNielsen South Africa to do the internal refurbishment of the offices at Handel Road, Ormonde.

Glenda Lunsky was responsible for office layout, design, procurement of furniture and fittings and installations – ie, from start to finish. The building comprises of 12 wings, covering 6700 Square metres, accommodating 350 staff. The project included executives offices, general open plan office areas, managers offices, reception, meeting and board rooms, auditorium, client entertainment areas, staff canteen, as well as the layout of the gardens.

Where the company's original request was for the construction of 4 additional meeting rooms, Glenda managed to meet the company's requirements and more with effective space planning. During the project Glenda managed the relocation of staff into temporary holding areas in order to ensure daily activities weren't interrupted.

Glenda was applied her creative talents to provide an environment befitting of a multinational company of which we are very proud.

Besides the well finished technical product, Glenda managed the project with her personal involvement with both the contractors and the staff involved, and still today visits the offices and people with whom she worked.

It has been a pleasure being involved with Glenda and her team on this project and I have no hesitation in recommending Glenda Lunsky and Associates.
